Annotation

This article explains the role and importance of the "Five Important Initiatives" in the organization of extracurricular activities in the primary grades.

Keywords. Extracurricular activities, five initiatives, ethics, art

We all know that the cornerstone of development, as well as the power that makes a country strong and a nation great, is science, education and upbringing. Our President Shavkat Mirziyoyev emphasizes that the bright future of our country is closely linked, first of all, with the education system and the education of our children .[1]. The Uzbek people have long been distinguished by their national traditions and views on child rearing. In the future, Uzbekistan should impress the world not only with its highly developed economy, but also with its educated and spiritually mature children. The sages say that man can do three things in his lifetime:

to plant seedlings, build a house, raise a child. But I would definitely put the last job first. You can plant seedlings, you can build a house, but if you instill the best qualities in yourself in your children and do everything you can to make them better and smarter than you, it is worthwhile to respect this goal as much as possible.

I think so. "[2] This phrase implies that the child's personality is paramount. The school plays an important role in the upbringing of children. and the formation of a system of values accepted by society . Extracurricular activities are an integral part of the school educational process and are one of the forms of organizing students' free time. Defining the organizational work, content and purpose of school and extracurricular institutions requires taking into account all aspects of today. From the class of this educational work is characterized by being targeted at defined stages of perfection.

Today, the implementation of the Foreign Affairs grade " five important initiative, the content of the work with the child's personal experiences and feelings experienced and the implementation of various aspects of human life:

science, art, literature, It is a simplified social experience of technology , human interaction, ethics, etc. In 5 important initiatives put forward by our President , it is necessary to pay more attention to our youth , to expand them into culture, arts, physical culture and sports. the involvement of young people with information technology skills among the youth of our readers, to promote women's employment issues.

Extracurricular activities specific content

There are several types of extracurricular activities:

- a) science circles;
- b) skillful hand circles;
- c) carpentry clubs;
- d) sports club;
- d) amateur art circle.

In secondary schools, this work is organized by the class teacher and the organizer of educational work. The class leader closely assists the club leaders. Encourages students who share the same interests and aspirations to join a circle.[3]

In five important initiatives, the goal of extracurricular activities can be fully achieved. It consists of:

The first initiative serves to increase the interest of young people in music, painting, literature, theater and other types of art, to reveal their talent.

The second initiative is aimed at physical training of young people, creating the necessary conditions for them to demonstrate their abilities in sports.

The third initiative is aimed at organizing the effective use of computer technology and the Internet among the population and youth.

The fourth initiative is aimed at raising the morale of young people, the organization of systematic work to promote reading among them.

The fifth initiative addresses the issue of women's employment.[4]

Look at the extracurricular compliance with the content of the work on the first attempt Steiermark, which should be in school, "Machir hands", "young artists" hobby courses. Creative activity involves the development of children's interests, their interests, the discovery of their creative potential. Creative activity is manifested in the form of public events such as concerts, singing, art reading, drawing competitions, theater, design club . Alisher Navoi is a teacher, especially demanding of children believes that it is important for them to acquire thorough knowledge and to form moral qualities in them. The scholar concludes that it is of great benefit to society

to pay special attention to the upbringing of gifted children who are capable of learning the basics of a particular science or the secrets of a particular profession, and that it is useless to try to bring up the incompetent. Failure to do so is cruelty, and educating the incompetent is a pity. Do not destroy him by not training him . ' [5] The idea of a fourth initiative is s training "young reader" in accordance with the competition . S Hidden increasing age of the Internet with the young fans of the book increase their level of importance, because of its various games and the Internet investment ideas still in the minds formed young people quickly stole the result Darker took the life of the bond drag. K Momentum o ' winter habits of children who directly or pressed leads to a distinct spirituality of the child to read a book like other children. He recognized independent provider this way and achieved great results. The work of the out-of-school institution children's library is noteworthy. Children's libraries serve students in grades I-XI of schools, as well as children of preschool age who can read books. The whole work of the library is aimed at educating children well, helping students to learn the basics of science, fostering a culture of reading in children, developing and strengthening the skills of independent learning.

This sport is also important to both glance ah unsuccessful defense. Sports fitness activities are carried out on nature excursions, sports games and movement games, spartakiads. Extracurricular activities can be held during breaks, after classes , on holidays and Sundays, during holidays.

In conclusion, the organization and conduct of each activity must have a goal. The lack of a goal creates a formality. If extracurricular activities are organized properly and continue on a regular basis, the goals of the five important initiatives results even further up, youth interest in science, art and literature love for the book, and the health silenced in the prison transfer achieved. Educational work is carried out on the basis of analysis and discussion of concrete facts and events from the daily lives of children, examples from fiction, periodicals, movies. The peculiarity of these works is that it teaches children to think about their own moral behavior and to evaluate them correctly.

Extracurricular and extracurricular educational activities complement and expand the educational process of students in their free time, allow students to learn independently, increase their positive abilities, initiative.

Educational work requires a teacher to use all his abilities, to constantly search. Because the next generation must be educated, organized, harmonious, true citizens of our Motherland.
