Education of mercenaries in the spirit of military patriotism is told about the multi-stage, systematic, purposeful and coordinated activities of state bodies, public associations and organizations, aimed at forming loyalty to the motherland, fulfilling civil duties and constitutional obligations, as individuals capable of protecting the interests of society and our state, regardless of nationality, language, profession and social origin of the growing younger generation. The main role in the education of young people in the spirit of military patriotism is played by the activities of educational institutions. The reason is that the main time of youth education at the educational institution, which is aimed at obtaining education, is given in preschool education, general secondary schools, secondary specialized, vocational education and higher education institutions. A number of works are also being carried out in our country to educate young people in the spirit of military patriotism. The reason is that the education of young people in the face of military patriotism is one of the priorities of state policy. In the current complex era of globalization, information communication technologies is rapidly developing conditions determine the urgent tasks related to the education of young people in the spirit of military patriotism and ways of their resolution, the role and importance of state and non-

profit organizations, family, neighborhood, educational institutions in this regard, their interaction taking into account national and international legal norms.

The purpose of educating young people in the spirit of Military-Patriotism is to show activity in young people in various branches of society, especially in types of civil service associated with the military sphere, to be loyal to the Constitution and Military duty in a peaceful and Military environment, to form in them such important characteristics as high responsibility and responsibility for the fate. There are the main tasks of educating young people in the spirit of military patriotism: - educating young people in the spirit of national ideology and loyalty to the Motherland, deep instill in their heart and mind the glorious and holy duty of the protection of the Motherland; -to be proud of our ancient history and culture, our national heroes who selflessly fought for the independence and prosperity of our native land, to form a sense of dignity for them, to strengthen confidence in the power and potential of our national army; - the need for physically strong and spiritually mature youth for our national army, strengthening the understanding of the holy duty for every citizen of Uzbekistan and theoretical and practical skills in this regard; - formation of skills to approach the political and social processes taking place in youth from our national interests, ideological immunity to various internal and external threats; - rapid and independent decision-making in any complex situations, to educate young people in the qualification of effective use of modern military equipment;-to be prepared to protect the interests of Uzbekistan not only in the military sphere, but in all aspects of life, being selfless for the country is the demand of today to instill in the minds of young people through life examples and impressive means. From the tasks set out in "the concept of educating young people in the spirit of military patriotism", I think that it is advisable to carry out the tasks set forth in the field of education of students of a higher educational institution in the spirit of military patriotism: the first to promote the essence of the reforms carried out in the field of Armed Forces systematic organization of training on topics related to the Armed Forces of the Republic of Uzbekistan, the military profession and the second is the life of the military in the "hours of spirituality " in order to further strengthen respect and education.

Thirdly, on the occasion of the "day of Remembrance and appreciation " may 9, Veterans of World War II and frontline labor, Military personnel killed in the performance of duty of service during the years of independence and law enforcement officers, organize the holding of cultural and educational and

patriotic events to explain, promote and promote the importance of courage and courage among student youth, welcome, to organize a visit of student youth to their place of residence with the participation of leaders in order to receive a message. Fourth to organize Military sports activities in educational institutions, including opening clubs from sports such as “hand-to-hand combat”, “summer biathlon”, “Sniper” and ensuring the participation of student youth; Fifth to organize cooperation with military units of the Ministry of Defense of the Republic of Uzbekistan, close to the educational institution, develop and apply a cooperation plan for patriotic education; sixth to ensure the participation of military personnel of the armed forces in spiritual and educational institutions held at the educational institution and exchange experience in organizing spiritual and educational activities with Military personality. Conclusion: the role of educational institutions in the education of young people in the spirit of military patriotism is extremely large, and educational work is carried out together with education in an educational institution. The spiritual and educational activities of students of higher educational institutions in the educational institution in the spirit of military patriotism are carried out through activities organized in cooperation with military personality.
